Maria Leusa is the head of the Wakaborun Women's Association and is threatened with death by mining

# **Sick forest: Munduruku children will not play and may be contaminated by mercury**

Contamination caused by gold mining is the main reason for Munduruku children to be born with malformations and face developmental delays. They are the ethnic group that requests the most wheelchairs in Brazil

BIG TECHS

# Documents link Amazon and Google to companies investigated for illegal gold mining

Indian refiner Sovereign Metals is listed in reports that indicate the origin of gold used in the manufacture of multinational components; the Indian company acquires the mineral from a Brazilian group identified by the Federal Police as a buyer of gold from illegal mining operations in the Amazon
